ABSTRACT

Disti Irfani Nurjanah, 2015. Friendly Tourism for People with Special Needs. English Diploma Program, Faculty of Cultural Science, UNS.

This final project report is written based on the job training at CV Explore Solo held on 2nd until 28th of March 2014. This final project report is also written based on a talk show conducted on 11th of April 2014. This final project is purposed to give description of the talk show about friendly tourism for people with special need is and how the talk show socialize the friendly tourism to audiences.

The result of this report shows that the talk show was successfully held in to fulfill job training's final project. Based on the talk show, friendly tourism for people with special needs is indicated by the providing of proper facilities which are needed by *diffable* hence the tourist attraction can be enjoyed by everyone. In order to realize the friendly tourism, there are some conditions. They are accessibility, attraction, accommodation, and amenity. In the other hand, it needs also law bases to develop and make the friendly tourism real. The talk show could also socialize "*Pariwisata Ramah Diffable*" to public as the expert speakers shared experience-based knowledge and gave motivation to make the friendly tourism real.

Therefore, the writer has some suggestions. First is for CV Explore Solo as a tour operator and tour consultant to make a special package for people with special needs. Second is for all of tourism department functionaries to concern more to the needs of *difable* tourists in order to make our country to be friendly for them. Third is for tourist object organizers to provide all tourists, people with special needs also, with excellent attraction and service. The last one is for all of tourism practitioner even travelers to always do effort in realizing friendly tourism for people with special needs.
